Inauguration of

PRESIDENT BENJAMIN C. CONNER

The Seminary

Williamsport Dickinson Seminary is a high grade boarding school for both sexes. For sixty-five years it has been doing its work with constantly increasing efficiency.

Location

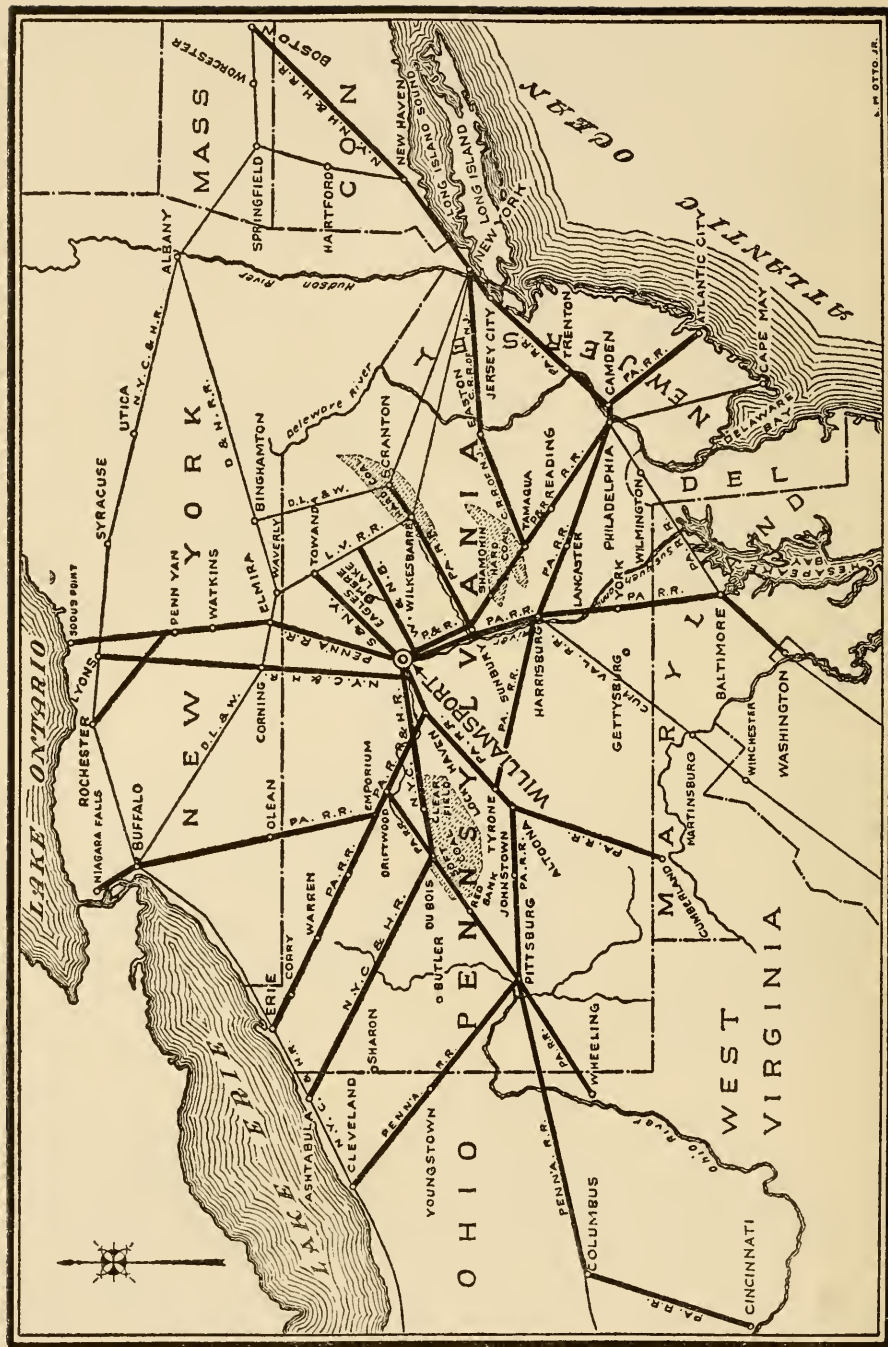

Williamsport is called "The Queen City of the West Branch of the Susquehanna River." It is famous for its picturesque scenery, its healthful climate, its beautiful homes, and the culture and kindness of its people. The New York Central, the Reading, and the Pennsylvania Railroads, with their fast trains, put Williamsport within two hours reach of Harrisburg, four and one-half hours of Philadelphia, and seven hours of Pittsburg.

Aim

The Seminary aims to fit for college and for life. It prepares students for any college or technical school. For those who do not plan to go to college, it offers exceptionally strong courses leading to appropriate Diplomas. The large number of graduates who have gone directly from the Seminary to their life work, and are now filling high positions is the best possible testimony to the educational value of these courses.

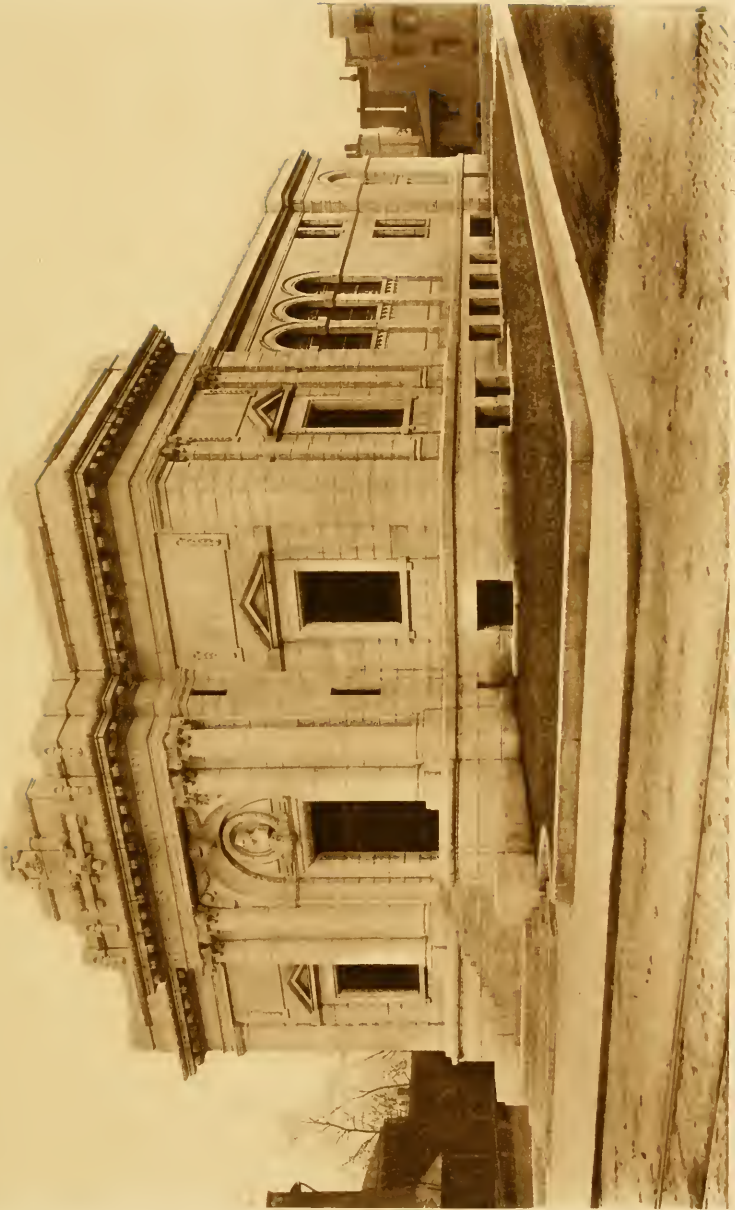

Faculty

The Faculty is composed of thoroughly trained, carefully selected Christian men and women. The two ideals they hold before themselves are scholarship and character.

A Home School

Every effort is put forth to make the Seminary as home-like as possible. The instructors live with the students, room on the same halls, eat at the same tables, and strive in every way to win their confidence and friendship.

A School of Culture

The Seminary aims to develop in its students an easy familiarity with the best social forms and customs. Inter-course with young people of both sexes in the dining hall, at receptions and other social functions, together with frequent talks by instructors, do much in this way for both ladies and gentlemen.

A Religious School

The Seminary is a religious school. It is not sectarian. At least four religious denominations are represented on its Board of Directors. Every student is encouraged to be loyal to the church of his parents. But the atmosphere of the school is positively and aggressively religious. Every effort is made to induce students to enter upon the Christian life and be faithful thereto.

Discipline

The Seminary believes that young people can be led better than they can be driven. It strives to inspire its students with high ideals, rather than to force them to do right through fear of punishment. But any lawlessness is promptly, and if necessary severely dealt with. Those who will not try to do right are not wanted at the Seminary.

The Sexes

The ladies' apartments are entirely separate from the others. Young ladies are chaperoned to all public entertainments. *There is no association of the young ladies and gentlemen except in the presence of the instructors.*

Athletics

The place of athletics in the life of the modern school is fully recognized. Attendance in the gymnasium is compulsory. Two Physical Directors care for the health of the students and direct their athletic work. One of the finest athletic fields in the State offers every facility for foot ball, base ball, tennis and other out-door sports.

Buildings

The buildings are of brick. They stand upon an eminence overlooking the city, in the midst of about six acres of beautiful grounds. The rooms are large, airy, and well furnished. The buildings are lighted by electricity, heated by steam, and supplied throughout with hot and cold water and all the modern conveniences. Constant care is exercised to preserve the best sanitary conditions.

Literary Societies

Three Literary Societies, the Belles Lettres, Gamma Epsilon and Tripartite Union, with well selected libraries aggregating over two thousand volumes, are maintained by the students.

Library

A reference library is part of the equipment of the Seminary and every effort is made to train the student in an intelligent use of the same.

The James V. Brown Public Library is within two squares of the Seminary. Its large collection of books as well as its courses of lectures and entertainments are freely open to all students of the Seminary.

Special Information

Young people of good moral character may enter the Seminary at any time for a single term or longer.

Applicants must bring certificate of work done and recommendation from school previously attended or from former instructors.

Students from a distance are required to live in the buildings. But those having near relatives residing in Williamsport are sometimes granted permission to make their homes with them.

Students are expected to come on the first day of the term and remain until the last day. Absences from classes at the beginning or end of holiday recesses *count double* and cannot be excused.

Parents should not call their children home during the term. Any absence interferes with good work.

Permits from home are accepted as advices, not mandates. In any case the final decision as to whether a permission will be granted, rests with the President and Faculty. No permit will be considered unless it has been mailed directly to the President.

No student shall be considered as having severed his connection with the Seminary until notice has been given and permission obtained from the President.

Students must report at the Seminary immediately upon arrival in Williamsport.

Students should be sparingly supplied with spending money. Whenever desired a member of the Faculty will act as patron, paying weekly such allowances as may be designated, and supervising all expenditures.

Students are not allowed to visit drinking saloons, pool rooms, the theater or similar places of amusement. Disobedience of this rule will be followed by dismissal.

Any student, who for disciplinary reasons, is requested to leave the city before a certain time, shall be considered as having expelled himself if he delays his departure beyond the time designated.

The Sabbath must be strictly observed. Attendance upon church services is required of all.

Students are expected to provide themselves with Methodist Hymnals (new edition) for use in the chapel service.

Meeting or engaging in conversation by ladies and gentlemen is forbidden except at such times and places as may be arranged for by the Faculty.

Students remaining at the Seminary during the holidays will be charged \$1.00 for each day or part of a day.

Guests may be entertained only when the permission of the President has first been obtained and their hosts pay the regular rates for their entertainment. Parents or guardians visiting pupils are for the first twenty-four hours the guests of the Seminary. No visitors are allowed on halls or in the students' rooms without permission.

Everyone who desires to continue as a student of the Seminary must show a reasonable disposition to comply with its regulations. In addition to the above some of the things expected are the following:

To be present at recitations or in his own room during study hours.

To keep his room and furniture in good condition.

To pay at once for any damage done by him to furniture, room, or any part of the grounds and buildings.

To refrain from using tobacco in any form about the buildings or grounds and to abstain from all coarse or profane language.

Not to leave the city or go bathing, boating, skating, fishing, gunning, or riding without permission from the President.

To obtain the permission of the Faculty before dropping any study which has been taken up.

Day students during school hours are under the same regulations as the boarding students. They are required:

To study quietly in the Study Hall when not in actual attendance upon recitations.

To attend the morning chapel services.

To procure from parent or guardian a written excuse for absence from chapel or recitation.

To abstain from all visiting in dormitory halls or in students' rooms during study hours.

Terms

With the beginning of the new school year a modest advance will be made in the charge for board and tuition. This is rendered necessary by the increase in the cost of living and other expenses. Our terms, however, will be found to be less than in other schools of like grade. Hereafter there will be no registration fee, and no special fee for Entertainments, Athletics, etc. A deposit of \$5.00 for

boarding students and \$2.00 for day students will be required when the student registers. These amounts will be credited on the first term's bill. All boarding and day students will be admitted FREE to all Entertainments, Lectures, Musicales, Athletics, etc., arranged by the Seminary. There will be no extra charge for these hereafter.

The School Year is divided into three terms of twelve weeks each. The rates given below cover instruction in any of the regular courses—College Preparatory, Belle Lettres, History and Literature, Commercial, Science and Literature, Scientific and Classical, and are for two students rooming together. The charge for tuition to children of ministers who are serving churches in Williamsport and vicinity will be one-half the regular amount.

Special discounts are allowed on the regular \$75 and \$350 rates to the following:

In order to graduate with a Diploma a student must have spent at least one year in study at the Seminary and *also have paid all his bills, in cash or its equivalent—not in notes.*

Emphasis will be laid upon thoroughness of work. The Faculty reserves the right to limit the number of studies which any pupil will be allowed to carry.

Students who do not intend to pursue one of the regular courses, with the consent of their parents and the approval of the Faculty, may elect such studies as they desire.

Departments

English Bible and Ethics

PRESIDENT CONNER.

The English Bible is a required study. Every student, whether in a regular course or a special student, is assigned to one of the Bible Classes. The effort is made by the use of text books and lectures to acquire a familiarity with the outline and most striking events and characters of Biblical History. (One period a week.)

The work in Ethics seeks to acquaint the student with the ideals of the different Ethical schools and to show the reasonableness and necessity of loyalty to high moral standards. The text book is Elements of Ethics (Muirhead).

Ancient Languages

DEAN NORCROSS.

The practical value of a study of the classics has often been questioned but nothing has ever been found to take their place. They are still retained in the best courses of the best schools, and are pre-eminently adapted to bring the student to an acquaintance with language and life.

The Preparatory course offered by the Seminary covers the needs of those preparing for college or technical school. The Classical course is more extensive and offers considerable of the work usually done in college. Every effort is put forth to make the study a live and interesting one to the student. Scrupulous attention is given to grammatical structure, the relation of these languages to English, the illustration and application of principles, accuracy and elegance in translation and the literary significance of the authors. Prose composition is carried through the course and Mythology and Classical Geography (Tozer) are studied in the Senior year.

Latin

DEAN NORCROSS, PROFESSOR CORDRAY, MISS MACK.

The College Preparatory course in Latin includes four years' work. It can be covered by exceptionally capable and industrious students in three years. But this privilege will be granted only to such as maintain a conspicuously high standard in all their work.

FRESHMAN YEAR.

Latin for Beginners (D'Ooge). Daily drill in cases and constructions. Prose composition. Sight translation.

SOPHOMORE YEAR

Caesar's Commentaries Books I-IV (Bennett). Sight translation and composition Preparatory Latin Writer (Bennett) Systematic study of formal grammar (Bennett).

JUNIOR YEAR

Virgil's Aeneid (Bennett), Books I-VI. Daily practice in Metrical reading. Prosody. Sight translation.

SENIOR YEAR.

Cicero's Orations (Bennett), Catiline I-IV, Archias, Manilian Law. Sight translation and composition based on the text (Latin Composition, Bennett). Review of Grammar.

Students in the Classical course in the fourth year also read Livy, (Greenough and Peck), Books XXI and XXII; Horace, Odes and Epodes (Bennett); Cicero, De Senectute (Bennett).

Greek

DEAN NORCROSS.

Experience has shown that three years are required to cover satisfactorily the College Preparatory course in Greek.

SOPHOMORE YEAR.

Using White's First Greek Book as a text the class is prepared as quickly as possible for reading. The latter half of the year easy selections from Xenophon are read.

JUNIOR YEAR.

Xenophon's Anabasis, Books I-IV (Harper and Wallace). Sight translation and composition based on the text. Systematic study of formal grammar (Goodwin). Prose composition throughout the year (New Greek Prose Composition, Woodruff).

SENIOR YEAR.

Homer's Iliad, Books I, II, III and VI (Seymour). In connection with the work in Homer there is a careful study

of Greek Literature based upon Jebb's Primer of Greek Literature.

Students in the Classical course in the fourth year read Xenophon, Memorabilia (Smith) ; Plato, Apology and Crito (Ketchel), and Thucydides, Book I.

History

MISS ALBERT.

The course in history runs through three years. Four hours per week are given to this work. Starting with the beginnings of civilization in the ancient empires of the East, the student traces the steps of human progress through Greece and Rome, thence through medieval and modern Europe noting carefully in England and Continental Europe the providential preparation for the new world that was to be opened across the Atlantic, and so comes fully prepared to an intelligent study of the social, industrial, and political history of the American people.

FIRST YEAR.

Two terms are spent upon Ancient History (West) and one upon Medieval History (West).

SECOND YEAR.

During the first term, Modern History (Harding), is covered. The last two terms of the year are given to a study of English History (Walker). The evolution of the English Constitution is traced and emphasis is laid upon that portion of European history which is contemporaneous with our own colonial period.

THIRD YEAR.

American History (Hart), and Civil Government (Moses). The student is brought to a clear understanding of the evolution of our National, State and local Governments, and the commercial and industrial as well as the political history are carefully studied.

ELEMENTARY COURSE

Elementary work in United States History (McMaster's School) is a part of the Academic and Scientific Courses.

Sciences

PROFESSOR FRANK.

The development of the powers of observation and reasoning, as well as the acquirement of a fund of practical knowledge is the aim of all the work in science. Work is done covering the requirements for admission to colleges and technical schools, while for those who do not plan to go to college additional work is offered.

Physics (a First Course in Physics. Millikan and Gale). A full year is devoted to Physics. The work of the three terms is divided as follows: (1) Mechanics and Heat; (2) Sound and Light; (3) Electricity and Magnetism. There is a well equipped laboratory and the student is required to keep a clear and accurate record of work done and results obtained.

Chemistry (Brownlee and others). Work in Analytic Chemistry is also offered as an elective. The laboratory is furnished with individual tables and supplied with gas, Bunsen burner, ring stand, water, case with full set of reagents and all necessary apparatus for illustrative experiment and quantitative analysis.

Geology (Brigham). The surrounding country offers unusual opportunities for the study of Geology directly from the book of nature. Every student makes a written report and collects characteristic specimens and fossils, representing the seven different geological formations presented by outcrops, within a few miles of the Seminary.

Zoology (Linville and Kelly). The simpler laws of life are taken up and a practical study made of the fern, earth-

1. Art. Studio 2. Commercial Room 3. Laboratory

worm, and frog. The oyster, crab, and cat are also dissected and the general relation in structure and physiology of animals is carefully brought out.

Botany (Bergen's Elements). The laboratory method is followed. Compound microscopes are accessible to the class and pupils are provided with a powerful lens and apparatus for plant dissection. But the emphasis is laid upon a study of the plants themselves rather than upon plant analysis.

Physiology (Colton). A thorough course in advanced Physiology and Hygiene is given. The method combines that of the text book and laboratory.

Photography. A dark room and complete photographic outfit is part of the Seminary equipment.

Modern Languages

MISS STEVENS.

Courses are offered in German and French which fully prepare for college entrance. The aim is to give at least the beginnings of a real insight into the language and literature. As far as possible the language studied is made the language of the class room. Daily drill in grammar, translation and composition is supplemented by frequent conversational exercises, the memorizing of standard poems and class singing of songs.

German

FIRST YEAR.

Grammar (Bacon). Im Vaterland (Bacon). Sight translation. Songs. Conversation.

SECOND YEAR.

Composition. Immensee (Storm). Die Jungfrau von Orleans (Schiller). Die Journalisten (Freytag).

THIRD YEAR.

Grammar review. Composition. Minna von Barnhelm (Lessing). Wilhelm Tell (Schiller). Hermann und Dorothea (Goethe). Klenze's Deutsche Gedichte. Sight translation.

French

FIRST YEAR.

Chardenal's Complete French Course (Revised). Contes et Légendes (Guerber). Le Français et La Patrie (Talbot). Cinq Histoires (Méras and Stern). Dictation and Conversation. Sight translation.

SECOND YEAR.

Composition (Comfort). L'Abbe Constantin (Halévy). La Prise de la Bastille (Michelet). Zaïre (Voltaire). La Tulipe Noire (Dumas). Sight translation. Le Voyage de M. Perrichon (Labiche et Martin).

Mathematics

PROFESSOR RAWLINS

The Seminary offers a full course in Mathematics, covering the work done in many colleges. College Preparatory students are given such work as will fit them for the college or technical school they wish to enter.

Careful effort is put forth to vitalize the Mathematical work by giving interesting practical applications of the principles involved. The interest of the student in his work is heightened as he finds that it has a practical as well as a disciplinary value.

Arithmetic (Milne Standard). Completed in Academic course and in first year of Belles Lettres, College Preparatory, and Commerce courses.

FIRST YEAR.

Algebra (Wells). This year's work in Mathematics is designed to render the student familiar with the symbolic language and fundamental processes of Algebra. The work of the text is covered to Quadratic Equations.

SECOND YEAR.

Geometry, Plane and Solid (Wells, New). The student is helped to a comprehension of the geometric concepts by concrete illustrations and careful verbal explanation. In the work of demonstration clearness and exactness of statement are insisted upon. To develop the student's own powers of reasoning original work is given.

THIRD YEAR.

Higher Algebra (Wells). An advanced course in Algebra is taken up and completed.

Trigonometry (Wells, New). The work in Plane Trigonometry is done by students in the "Classical," "Science and Literature" and "Scientific" courses. It may be elected by Preparatory students who need it for college entrance.

Surveying (Robbins, Plane). The recent addition of a high grade combined Transit and Leveling Instrument makes possible a grade of work not usually done in secondary schools. Strong courses in Analytic Geometry (Wentworth); Calculus (Osborne, Differential and Integral), and Astronomy (Young, Textbook) are offered to Seniors whose previous preparation has been such as to qualify them for the work.

English

MISS BOWMAN.

The aim of the work in English is to develop as far as possible, in every student, the power to write correct and

forceful English, and to understand and appreciate the best things which others have written. The foundations are carefully laid in a study of formal grammar, which is a requirement for admission to Freshman English. The principles of Grammar are constantly reviewed throughout the course. Themes and longer compositions are frequently required. These are examined, corrected and returned to the pupil for revision or for new work of a similar character. Essays and orations for public delivery are required from all students in English III and IV. The schedule of English Classics for college entrance requirements is followed throughout the four years and in English III text books on American and English Literature are studied. Careful attention is given to oral English.

FIRST YEAR.

Careful drill and review of Grammar. Practical exercises are given in order that the student may learn to construct sentences that obey the laws of syntax. Students are taught how to use the dictionary. Reading, Letter Writing, Spelling, and Punctuation are given throughout the year.

Enlarged Practice Book (Hitchcock), is used as a basis for this work as well as for laying the foundations of English Composition. Students are drilled in selection of subjects, theme building, paragraphing, clear and correct expression. Attention is paid to Oral Composition to secure accuracy of speech.

The classics read and studied are *Lady of the Lake*, *Scott*, *Sketch Book*, *Irving*, *Vicar of Wakefield*, *Goldsmith*—To be read out of class. *Treasure Island*, *Stevenson*.

SECOND YEAR.

With *The New Composition—Rhetoric* (Scott and Denney) as a text, a careful study of Composition is continued

through the Sophomore and Junior years. Especial attention is given to sentence building and methods for enlarging and correcting the vocabulary. The rhetorical principles of unity, coherence, and force are carefully studied. The paragraph is made the basis of this systematic study.

The classics read are *Ivanhoe*, *Scott*; *Sir Roger de Coverly Papers*, *Addison*; *Merchant of Venice*, *Shakespeare*, *Silas Marner*, *George Eliot*, *Homer's Odyssey*.

THIRD YEAR.

The New Composition—Rhetoric continued and reviewed. Sufficient work is done in Poetics to prepare the student for understanding and enjoying English poetry. Weekly theme writing. Brief essays or orations for public delivery are required. All students follow Outline Study of English Literature (Howe) in connection with their work with the classics. More extensive courses in American Literature (Halleck) and English Literature (Pancoast) are elective. The classics for this year are: Prologue, *Chaucer*; "As You Like It," *Shakespeare*; *Macbeth*, *Shakespeare*; *Lycidas*, *Comus*, *L'Allegro and Il Penseroso*, *Milton*; *Vision of Sir Launfal*, *Lowell*; *Rime of the Ancient Mariner*, *Coleridge*.

FOURTH YEAR.

The New Composition—Rhetoric completed. Exposition and argument. Two essays or orations for public delivery are required. Weekly themes written in class. The elements of debate are studied and practiced. Careful study of the following classics: *Speech on Conciliation*, *Burke*; *Essay on Burns*, *Carlyle*; *Sesame and Lillies*, *Ruskin*; *Idylls of the King*, *Tennyson*; *Henry Esmond*, *Thackeray*, to be read out of class.

Psychology, Logic, Literature

MISS MACK.

Psychology (Halleck). Upon a sound physiological basis is built a careful study of the underlying principles of habit and thought.

Logic (Jevons-Hill). To develop the powers of correct thought and argument in oneself, and the ability to detect at once the fallacy or weakness in the thought and argument of others is the aim of this course.

Literature. Apart from the required work more extensive courses are offered in English and American Literature. In addition to the historical study, students are introduced to representative masterpieces and are helped to understand and enjoy what is best in our language. The texts used are Pancoast's Representative English Literature, and Halleck's History of American Literature, with supplementary reading.

Political Economy

PROFESSOR CORDRAY.

Political Economy (Walker). The general laws governing the production and distribution of wealth are studied and every effort put forth to make the work of practical value by applying these to present day economic problems like strikes, monopolies, labor unions, etc.

Athletics and Physical Training (Boys)

PROFESSOR CORDRAY.

Persistent effort is made to interest every boy in some form of out-door sport. The athletic teams are carefully selected and trained. They are sent into a game to win if they can, but more emphasis is placed upon playing the game fair and straight than upon winning. During the inclement

weather every boy reports three times per week for gymnasium work. An inexpensive regulation suit can be procured after reaching the Seminary.

The School of Commerce

PROFESSOR HOYT.

The Seminary has been offering such courses of instruction in Bookkeeping and Business, Stenography and Typewriting, etc., as are usually offered in a Business College, and will continue to do so for the benefit of students who desire to take such work.

But the day has come when the young man or woman who desires to win large success must receive a broader training for his work. From three to four years are spent in a school of law or medicine. Why should there not be an equally thorough training for business? If a boy prepares to enter college by studying for four years the Languages and Mathematics he will need when he enters upon his work there, why should he not spend three or four years studying the world's geography and history from a commercial point of view, acquainting himself thoroughly with the theory and practice of business as it is carried on by the great industrial and financial concerns of to-day, getting a grip on the things he will need to use when he steps out into the business world? The attention of parents who have children they desire to prepare for business is especially directed to the new course in Commerce, which, in addition to what has been mentioned, includes a three years' careful drill in those common English branches which are the raw material of all our knowledge; a course in commercial law and full courses in bookkeeping and in stenography and typewriting. Students entering either the regular or either of the special courses, are charged the regular rate

of \$75 per year. There are no extras unless extra work is taken. For detailed course of Commerce see under Courses of Study.

Special Courses

In addition to the Three Years' Course in Commerce, leading to graduation, the Seminary offers to its students an opportunity to pursue work in any of the commercial subjects. All the advantages of the school are open to these special students, including the privilege to carry studies in any of the regular courses without extra cost.

The following work is required for a certificate in these special courses :

BOOKKEEPING.

Commercial Arithmetic, Complete, English Grammar, Spelling, Penmanship, Commercial Law, Bookkeeping, Complete.

SHORTHAND.

Shorthand, Typewriting, Commercial Law, Commercial Arithmetic, English Grammar, Spelling, Penmanship, Office Practice.

A required speed in shorthand and typewriting must be attained.

No work will be accepted for any of these studies. Students desiring certificate must either take the work in the Seminary, present approved certificates, or pass a satisfactory examination.

The Seminary does not guarantee to get positions for its students, but it has always had more calls for well qualified bookkeepers and stenographers than it could supply.

The Academic Department

Young or backward pupils who are not prepared for the work of the regular courses enter the Academic Department. Here regularly graded classes in all the common English branches afford opportunity to take such work as they are fitted for. The work of the last year includes Arithmetic, Grammar, English Composition, Geography and Map Drawing, American History, Reading, Spelling and Penmanship.

The Junior Department

A limited number of children over six years of age are received as day pupils. For the accommodation of these a large well lighted school room furnished with all modern equipment is reserved. A competent teacher especially trained for this work gives to each pupil an amount of individual attention such as could not under ordinary conditions of school life be given. The special teachers in Art, Expression, Vocal Music, and Physical Training give the children lessons in these subjects and the course of study and methods of instruction are such as are in use in the best primary schools.

For more detailed information as to text books used, methods, etc., see under Departments.

Music Department

Piano

MISS EHREN. MISS PARLETTE. MISS FEIGLEY.

This course has recently been lengthened to four years. The character of the work required as well as the quality of the instruction will, it is believed, still further increase the high reputation the Seminary has already won.

Students who have had sufficient previous training will be admitted to the Freshman class. Only those passing satisfactory examinations will be admitted to the higher classes.

Pupils taking but one lesson a week cannot complete the course in the prescribed time.

All candidates for graduation, in either instrumental or vocal music, must have studied and passed satisfactory examinations in Harmony, History of Music, Elements of Music, and Ear Training, and must have played in public.

The musical students meet fortnightly for lectures and public practice.

No reductions will be made for lessons missed because pupils have failed to present themselves at the time appointed, nor is the teacher under any obligations to make up such lessons with the pupil. No music student is allowed to teach without the consent of the Director of the Music Department.

ENTIRELY NEW PIANOS—In order to furnish our Music Students with the best facilities for prosecuting their work we have just arranged to have every piano in the building removed and four (4) new Knabe Concert Grand and (20) new Haines Brothers pianos put in their places. We have never been so well equipped in this particular before. The following letter explains itself:

AMERICAN PIANO COMPANY

Knabe Building,
Fifth Ave., Cor. 39th St.,

New York, April 22, 1913.

Rev. B. C. Conner, Pres.
The Dickinson Seminary,
Williamsport, Pa.

My Dear Mr. Conner: We have your favor of April 21st enclosing contracts properly signed for the purchase of four (4) new Knabe Concert Grand Pianos and twenty (20) Style 17 Mahogany Haines Brothers Pianos, which will equip Dickinson Seminary exclusively with new pianos.

We wish to congratulate you on this equipment and, from a personal acquaintance with the equipment used in practically all of the better colleges in this country, we can assure you that your equipment of pianos will be equal to any Seminary in your State and far superior to a great majority of them.

Thanking you very much for your patronage, we are

Very truly yours,

AMERICAN PIANO COMPANY,

Violin

DOCTOR BUTLER.

This department offers unusual advantages to the student who desires to gain a broad and thorough knowledge of the violin and to become an artistic performer or efficient teacher in the shortest time possible.

The instruction in this department is in charge of a successful and experienced teacher and a widely known concert player, composer, and writer on musical subjects.

The course requires two lessons a week through a period of from three to four years according to the ability of the student. It is founded upon the best conservatory methods and will be adapted to the needs of the pupil. Because of the very careful attention that must be given beginners in violin to produce correct results in bowing, fingering, position and intonation no less than two lessons a week will be given during the first year's work unless the pupil, after a term of lessons, shows exceptional ability.

The course includes Chas. Dancla's School of Mechanism, scales, preludes, chords, etc., op. 74, Fifty Daily Exercises, selected; Sevcik's technic; Schradieck's scale and chord

studies, exercises in double stopping and bowing; Kayser, op. 20, 62, 68, 31, etc.; Kreutzer, "Forty Caprices;" Fiorillo, "Thirty-six Caprices;" Rode, "Twenty-four Caprices," and solos, sonatas and concertos from the master composers. An ensemble class is a feature of the work.

Candidates for graduation must study one year at least in the institution, play on the public programs, and at the senior recitals and pass satisfactory examinations in Theory, Harmony and Musical History.

'Cello, Mandolin and Guitar

DOCTOR BUTLER.

The course in violoncello is equivalent in grade to that of the violin and is based on Kummer's studies.

The work in mandolin includes the two books of Cristofaro's technique.

Carcassi's studies are the foundation of the work in guitar.
